

Individual Membership

The Bretton Woods Committee is the preeminent non-profit organization dedicated to effective global economic and financial cooperation. We demonstrate the value of multilateralism and improve the performance of the international financial institutions (IFIs) through public dialogue, advocacy, and policy analysis.

Individuals are encouraged to join to show their support for global economic and financial cooperation. As a member you will have access to a strong network of global influencers and the opportunity to interact with them in meaningful ways through networking events, conferences, and working groups.

Please contact Robin Muthig, Director of Membership and Giving at RMuthig@brettonwoods.org for more information or to join.
