WHAT WE DO

CONVENE

leaders from industry, finance, academia, and government for critical dialogue on global economic issues.

INFORM

government officials of the value of multilateralism as an independent, non-partisan advocate.

ADVISE

national and multilateral policymakers through expert analysis and policy prescriptions.

DRIVEN BY MEMBERS

BWC's work is informed and led by members. Through working groups and events, BWC members come together to analyze the issues, develop policy proposals, and move the dialogue forward on the most pressing issues facing the global economy.

MISSION

The Bretton Woods Committee is the preeminent non-profit organization dedicated to effective global economic and financial cooperation.

Towards this end, we demonstrate the value of multilateralism and improve the performance of the international financial institutions (IFIs) through public dialogue, advocacy, and policy analysis.
